FOR IMMEDIATE RELEASE

xplicator Launches the “Doing Good by Doing Good Competition” for Makerspaces and Makers: A Chance to Win One of 33 3D Scanners

Hamburg, Germany – August 23rd 2024 – xplicator, a leading innovator in 3D scanning technology through its platform [3D Scan Online](#), is excited to announce the launch of the “Doing Good by Doing Good Competition.” This unique competition offers makerspaces the opportunity to win one of 33 state-of-the-art 3D scanners by showcasing projects that contribute to education, community, or other positive causes.

The competition is open to all makerspaces making a tangible impact through their projects. Whether your initiative enhances educational opportunities, fosters community engagement, or supports any other noble cause, we encourage you to submit your project for a chance to win this powerful tool and further elevate your work.

Key Details of the Competition:

- Prizes: 33 high-quality 3D scanners, perfect for expanding the capabilities of your makerspace.
- How to Enter: Makerspaces can submit their projects through the competition website: <https://contest.xplicator.com/doing-good-competition/>.
- Voting Process: Winners will be selected through a public vote, allowing communities to support the projects they believe have the greatest impact.
- No Purchase Necessary: The competition is completely free to enter, and all eligible projects will be considered.

“At xplicator, we believe in the power of innovation to drive positive change,” said Gerrit Kolb, CEO of xplicator. “The Doing Good by Doing Good Competition is our way of supporting makerspaces and makers that are already making a difference, by providing them with a tool that can help take their projects to the next level. We’re excited to see the incredible work being done and to give the community a voice in choosing the winners.”

About xplicator: xplicator is a pioneering company specializing in digital platforms that make advanced technologies accessible on a global scale. Committed to innovation and excellence, xplicator continues to push the boundaries of what’s possible in the digital world.
